

Presidential Address – 2020

Geoff Davies

© 2020

Let's make America great again
Lots of sun and no more rain
Sorry, I meant "no more pain".

Climate change is just a hoax
I'm telling you the truth, folks.
Fires are started by arsonists
Democrats and misfits.

Glaciers melting? It happens, so -
It's all about the ice flow.
Oceans rising? It seems to me
There're more folk bathing in the sea.

"Arm the people", that's my aim
Immigrants are the ones to blame.
Support the gunsmiths, NRA
Let militias have their say.
Help our kids live peaceful lives
I say "arm them", 'cos I'm wise.

Now we must complete the wall
Make it very, very tall.
My great idea I have no doubt
Will help me keep Latinos out.

Allies now have had their day
All they do is make us pay.
Our trade agreements are bad we feel
I can strike a better deal.

We help dictators fight their cause
So sell them arms to wage their wars.

China's getting far too strong
We're the best, it's all so wrong.

The USA is always right
Better if it was all white.

There's one man that's most admired.
It's me, you fool; now you're fired.
