

## Reiect (S) tories

A government in disarray  
But at least the voters had their way.  
They voted for a populist  
Who promised Brexit on his list.  
Many voters of feeble mind  
No doubt left their brains behind.  
They gave the tories their assent  
A government most incompetent.  
U-turns, backslides, upside down  
Policies go round and round.

Let's start with Brexit, now it's done  
Oh no, not quite, there's more to come.  
"We have the power to strike a deal".  
Okay, if that's the way you feel.  
"We are the rulers of this land".  
The EU holds a better hand.  
Four years on from Brexit day  
There has not been much headway.

Then we're hit with COV19  
"Keep your bodies safe and clean."  
Let's do this, no let's do that  
Ministers are in a flap.

Education is the key.  
"No exams, you're all grade C.  
Sorry but we got that wrong".  
Another government ding-dong.

“Let’s back Huawei, they’re here to stay”.  
But the US says “Send them away”.  
“They can’t be trusted” we are told.  
None resist; None are bold.

Lastly international law  
It’s there for breaking and what’s more ...  
We are British; we are right  
The Empire’s ready for a fight.

What a state our country’s in  
Just chuck the tories in the bin.
